

HIREDEPOT
Gas Heater – HAZARD ASSESSMENT

<u>The Identified Hazard</u>	<u>Risk Yes/ No</u>	<u>The Proposed Method of Control Measure</u>	<u>Are The Control Methods Practical</u>
<i>Persons could be injured if the operator performs duties that are not his responsibility and beyond the scope of his technical capabilities.</i>	Yes	<i>The operator should be adequately trained or licensed. The operator must not carry out any work that is outside his normal duties and report any matters of concern to his supervisor.</i>	Yes
<i>Persons could be injured as a result of electrocution.</i>	Yes	<i>Ensure lead is well clear of heat source. Use a power supply protected by a safety switch. Do not use in wet or damp conditions. Do not use with faulty leads or plugs. Ensure equipment is tested/tagged for compliance with electrical safety testing requirements.</i>	Yes
<i>Persons could be injured if they come into contact with hot parts.</i>	Yes	<i>Keep body parts well away from the heater when in use. When not in use turn the heater off. Ensure that all protective guards are in place. Allow the heater to cool before transporting.</i>	Yes
<i>Persons could be injured as a result of fire caused by the heater and/or gas.</i>	Yes	<i>Ensure the heater is placed away from combustible materials and awnings. Only use in well ventilated outdoor areas. Ensure all hoses and fittings are connected properly and check for leaks using soapy water.</i>	Yes
<i>Persons could be injured if they slip, trip or fall around the heater.</i>	Yes	<i>Ensure the heater is placed in a position where it will be least likely to be tripped over or bumped. When using the Radiant heater, secure heater with the chain attached. Keep all leads and hoses untangled and clear of thoroughfares.</i>	Yes
<i>Persons could be injured as a result of leaking gas.</i>	Yes	<i>Ensure all hoses and fittings are connected properly and check for leaks using soapy water. Only use in a well ventilated area.</i>	Yes
<i>Persons could be injured if the machine operator is unfamiliar with typical unsafe conditions and hazards that could affect the safe operation of the unit.</i>	Yes	<i>The operator should be trained in determining unsafe conditions and hazards that are relative to the machine's safe operation.</i>	Yes
<i>Persons could be injured if personal protective equipment is not available or being used when working in an unsatisfactory environment e.g. noise, heat, fumes, etc.</i>	Yes	<i>Instruct the operator to ensure that appropriate personal protective equipment is available and is in good condition prior to commencing work. Only operate in a well ventilated area.</i>	Yes
