

Vacuums

(Guide only)

BEFORE STARTING (VERY IMPORTANT)

Read the hazard assessment sheet.

DRY VACUUMS

1. Ensure the vacuum has the filter inside it.
2. Use the correct vacuum for the material that is to be used - e.g. for fine dusts, use a fine filter vacuum.

WET VACUUMS

1. Ensure the vacuum is capable of being used as a wet vac. The vacuum will be marked accordingly. If unsure consult with your local Hiredepot branch.
2. If the vacuum is suitable, the filter must be removed when using wet.
3. Fine filter vacuums are not suitable for using when wet.

TROUBLESHOOTING

Problem	Possible solution

MANDATORY PERSONAL PROTECTIVE EQUIPMENT

Do not under any circumstances attempt any repairs. Please call your local Hiredepot branch for assistance.

This operating and safety brochure is intended as a guide only for the safe operation of this equipment. It does not override license requirements nor is it a substitute for structured operating lesson. If you are unsure about any aspect of the equipment, its capabilities or the correct usage, please call our trained staff for instruction or any questions you may have regarding the safe operation of this equipment.
